GUARDIAN

Control Clocks

www.andras.it

GUARDIAN 7 (7 days & 7 nights)
GUARDIAN 14 (14 days & 14 nights)

The management of the security service, with maximum reliability.

GUARDIAN clocks are generally used to patrol supervisory services, both day and night.
For their elegant lines and the safety lock key can be installed anywhere.

Electronic quartz movement, high precision.

Disc diameter 15 cm, maximum visibility of punching showing hours of operation.
Plastic container FIREPROOF, dimensions 195x220x60 mm, positioned using wall plugs as NOT affected by weather conditions.

The inclusion of a commercial battery replaceable type D (torch) 1.5 V allows instant operation for approximately 1 year.
